SUMMARY

Detail-oriented Computer Engineering student with a keen interest in backend development and data science. Proficient in Flask for backend development, with a solid foundation in data science, machine learning, and JavaScript. Possessing a strong "get-it-done" attitude when troubleshooting technical challenges. Seeking to leverage growing skills in backend development and data science to contribute effectively as a Django Backend Developer, while actively pursuing knowledge expansion in the field.

STRENGTHS

- Strong problem-solving
- Analytical skills
- Interpersonal Skills
- Communication
- Collaboration
- Leadership
- Critical thinking
- Attention to detail

SKILLS

Backend Development: Flask & Django

Data Science and Machine Learning

Database Management Systems: MySQL

Programming Languages: Python, Javascript, C++

Problem-Solving: Troubleshooting technical issues with a "get-it-done" attitude

Adaptability: Quick learning and adaptation to modern technologies

PROJECTS

Cryptography
- *Developed projects demonstrating encryption and decryption techniques.*

Computer Vision and Image Classification
- *Implemented computer vision models for image classification tasks.*

Arduino Projects
- *Created various projects utilizing Arduino boards for practical applications.*

Game Development
- *Created interactive games demonstrating proficiency in C++.*

EDUCATION

Bachelor of Computer Engineering
Kantipur Engineering College
Dhapakhel, Lalitpur
2020 - present

High School
Motherland Secondary School
Masbar, Pokhara
2018 - 2020

CERTIFICATES

Informatics Cyber Security Bootcamp *(2020)*
